Kits at a special price

Multitool for ventilation professionals.

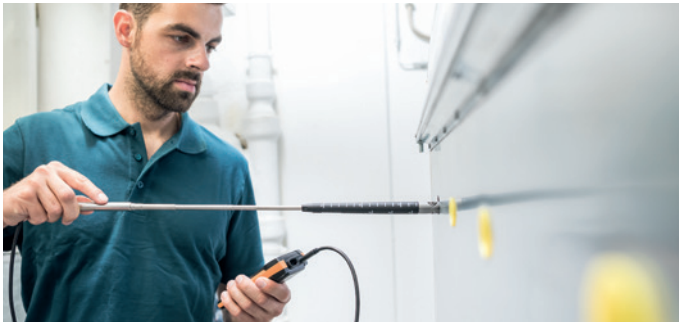
Unpack and get started. The versatile testo 440 complete kits for all important environmental measurements are now especially attractive for a short time.

Made for your job:
The testo 440 complete kits.

Do you want to adjust air conditioning and ventilation systems, check flow in ducts and at outlets, monitor air quality or measure comfort?

No matter what you want to measure: The testo 440 is your multitool for all IAQ parameters. So you are optimally equipped for every measurement task.

Discover the versatile testo 440 in practical complete kits now and benefit from the best price/performance ratio.



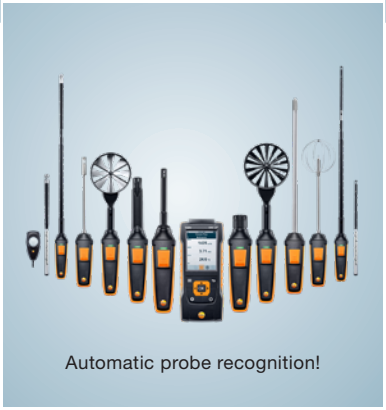
More information about testo 440 at www.testo.com

Intuitive.

- **Clearly structured menus for volume flow and funnel measurement** and other IAQ applications
- **To the measurement in just a few clicks:** e.g. simply enter duct geometry and the testo 440 immediately displays the volume flow
- Also start and stop the **Bluetooth® probe measurement** with a simple button click

Versatile.

- **Broad range of probes and useful accessories** (funnel, telescope, tripod) for all applications
- **Wireless Bluetooth® probes** for convenient measurements in any situation



Automatic probe recognition!

More information about testo 440 at www.testo.com

Clear overview.

- Everything important **brought together in one handy measuring instrument**
- Configuration and result view **at a glance**
- Parallel display of all relevant IAQ parameters with **3 measurement values simultaneously**
- **Large measurement data memory** incl. data export via USB

Reliable.

- **Highest precision** in any duct cross-section and in all flow velocity ranges
- **Intelligent calibration concept:** only the probes need to be calibrated, the instrument and handle remain in use

The right kit
for all applications.

What do you measure?

Volume flow

in ducts	testo 440 16 mm vane kit	
at vents	testo 440 100 mm vane kit	
in ducts and at vents	testo 440 flow ComboKit	

Indoor air quality

Humidity measurement in storage and work rooms	testo 440 humidity kit	
CO_2 measurement indoors	testo 440 CO_2 kit	

Kit details see inside pages.

Volume flow

Measurement at outlets and in ducts.

testo 440 dP flow ComboKit 2 with Bluetooth®

- ✓ testo 440 dP air velocity & IAQ measuring instrument including differential pressure sensor
- ✓ Vane probe (Ø 100 mm, digital) – with Bluetooth®, including temperature sensor
- ✓ 16 mm vane probe head, including temperature sensor
- ✓ Humidity/temperature probe head
- ✓ Extendable telescope (up to 1 m in length) for flow probes
- ✓ Combi-case for testo 440 and multiple probes

Order no. 0563 4410 | Promo price **xxx.xx €***

Measurements at vents.

testo 440 100 mm vane kit with Bluetooth®

- ✓ testo 440 IAQ measuring instrument
- ✓ 100 mm vane probe with Bluetooth, incl. temperature sensor
- ✓ Bracket for testovent measurement funnel
- ✓ Basic case for testo 440 and 1 probe

Order no. 0563 4403 | Promo price **xxx.xx €***

Measurement in ducts.

testo 440 16 mm vane kit

- ✓ testo 440 IAQ measuring instrument
- ✓ Vane probe Ø 16 mm, fixed cable, with integrated telescope (up to 0.85 m)
- ✓ Basic case for testo 440 and 1 probe

Order no. 0563 4401 | Promo price **xxx.xx €***

* Promo period xx.xx. to xx.xx.2022. While stocks last.

Indoor air quality

Measurement of humidity and temperature.

testo 440
humidity kit with Bluetooth®

- ✓ testo 440 air velocity & IAQ measuring instrument
- ✓ Humidity and temperature probe with Bluetooth
- ✓ Basic case for testo 440 and 1 probe

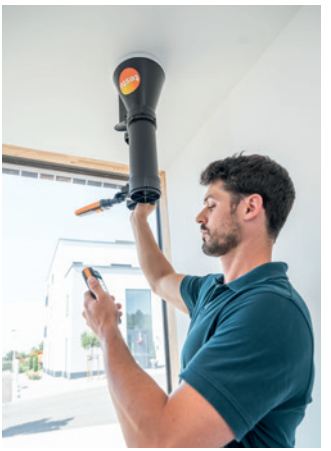
Order no. 0563 4404 | Promo price **xxx.xx €***

Measurement of indoor air quality

testo 440
CO_2 kit with Bluetooth®

- ✓ testo 440 IAQ measuring instrument
- ✓ CO_2 probe (digital) with Bluetooth® including temperature and humidity sensor
- ✓ Basic case for testo 440 and 1 probe

Order no. 0563 4405 | Promo price **xxx.xx €***



* Promo period xx.xx. to xx.xx.2022. While stocks last.

More probes and accessories

Probes		Order no. EUR
Hot wire probe, fixed cable, including temperature sensor		0635 1032 **xxx.xx**
Robust humidity/temperature probe for temperatures up to +180 °C, fixed cable		0636 9775 **xxx.xx**
Turbulence probe, fixed cable		0628 0152 **xxx.xx**
Lux probe, fixed cable		0635 0551 **xxx.xx**

More probes at www.testo.com

Accessories		Order no. EUR
Extendible telescope for testo 440 flow probes (37.5 to 100 cm incl. 90° angle)		0554 0960 **xxx.xx**
testovent 417 flow straightener set consisting of volume flow straightener testovent 417, round funnel for disc valves (Ø 200 mm), square funnel for ventilation grilles (330 x 330 mm)		0554 4173 **xxx.xx**
testovent 417 funnel kit comprising funnel for plate outlets (Ø 200 mm) and funnel for fans (330 x 330 mm) for incoming/outgoing air		0563 4170 **xxx.xx**
testovent 417 volume flow straightener		0554 4172 **xxx.xx**

Measurement at large outlets

testo 420 volume flow hood for larger ceiling vents

- ✓ Light weight at only 2.9 kg
- ✓ Precise measurement of volume flow, temperature and relative humidity
- ✓ High measurement accuracy thanks to volume flow straightener
- ✓ Fast set-up, easy operation and on-site reporting via App

Order no. 0563 4200 | Promo price **xxx.xx €***

* Promo period xx.xx. to xx.xx.2022. While stocks last.
