FOR IMMEDIATE RELEASE

### **Testo 104, 104-IR & 104-IR BT Thermometers Achieve NSF Certification**

**WEST CHESTER, PA (January 9, 2019)** – Testo North America is proud to announce the certification of its Testo 104 family of food thermometers according to NSF/ANSI Standard 2 - Food Equipment. This newly certified family includes the Testo 104 food thermometer, the Testo 104-IR infrared food thermometer and the Testo 104-IR BT infrared food thermometer with Bluetooth.

NSF/ANSI Standard 2-Food Equipment outlines the minimum requirements for equipment design, material cleanability and durability that is required in the global food industry. NSF International provides specific and rigorous requirements for NSF/ANSI Standard 2 - Food Equipment.

“This certification demonstrates Testo’s commitment to providing the food industry with accurate and durable instruments,” says Eric Moore, Testo’s Director of Food Safety and Regulatory Compliance. “The achievement means that Testo products offer the accuracy and dependability that both industry professionals and regulatory officials can rely on.”
